YOUR DATA NETWORK PROFESSIONAL WITH PERSONALITY

Large warehouse - always a large selection

With us you can shop relaxed, because our own warehouse is always well filled. This shortens the delivery time and makes your order uncomplicated and efficient. We maintain a close and cooperative relationship with our logistics partners and suppliers.

With us you do not have to wait long

Thanks to efficient delivery processes, you will receive your orders in the shortest possible time and directly where you need it. Sit back and trust that your products will arrive on time on the promised delivery date.

Quickly and personally there for you

Your personal contact person can be reached quickly and can provide you with information immediately: Whether for product selection and combination, queries about your order or expert advice about your project.

EFB-ELEKTRONIK IS A MATTER OF THE HEART

"Our team sticks together and above all wants to support our customers in the best possible way.

This is how we create personal relationships, some of which last for decades, and a genuine basis of trust.

Our customers appreciate that we provide them with personal and goal-oriented advice, are more accommodating than average, and don't give up even when faced with complex challenges.

And we do this in an amiable and down-to-earth way."

Robin Ohle, Managing Director, CEO

NETWORK TECHNOLOGY FROM A TO Z

WE MAKE YOUR TECHNICAL HEART BEAT FASTER

Discover a broad and at the same time deep product portfolio with over 10,000 products and everything you need to build an entire network. With us you will not only find proven products for standard applications, but also special products for special purposes.
